Dedicated and skilled Software Engineer with expertise in full-stack development, specializing in ReactJS, JavaScript, Python, and various frontend and backend technologies. Proven track record in successfully delivering projects, from secure ICO platforms to comprehensive user interfaces, with a commitment to agile methodologies and effective collaboration. Strong problem-solving skills and a passion for driving real-world, data-centric initiatives.

## PROFESSIONAL EXPERIENCE

### Remote, Sept 2023 – Present **Freelance Developer**

- Independently conceptualized, designed, and developed customized solutions for a diverse range of clients, specializing in remote collaboration.
- Collaborated seamlessly with internal teams, including graphic designers and QA testers, to develop and launch a new application within a tight timeframe, six months ahead of schedule.
- Utilized advanced technologies, including ReactJs, JavaScript, Python, Redux, CSS, HTML, TypeScript, and Styled Components, to craft intuitive and user-friendly interfaces.
- Applied version control and collaboration tools such as Git, ensuring a streamlined workflow and organized codebase.
- Embraced Agile methodologies for project management, contributing to sprint planning, daily stand-ups, and proactive problem-solving sessions.
- Maintained regular communication with clients, providing project updates, addressing concerns, and ensuring alignment with project objectives.

### Dataio, Surat, Gujarat, India, Apr 2023 – Sept 2023 **Implementation Consultant**

- Proficiently configured Data Modeling, UI Configs, Workflow, Business Rules, Graph Processor Integration, and outbound profile Integration.
- Demonstrated agility in customizing Syndigo MDM tools, contributing to various projects with a focus on resolving Riversand errors.
- Documented and reported software bugs, showcasing strong problem-solving skills and proposing alternative solutions until resolution.
- Applied Agile methodologies and utilized task management systems like Jira and Confluence for skilful customization of Syndigo MDM tools, leading to efficient project organization and Streamlined collaboration.

### Accubits Technologies Inc, Thiruvananthapuram, Kerala, India Dec 2021 – Apr 2023 **Software Engineer**

- FutureGrail Project (CoinFactory) - Singapore:
- Engineered the "FutureGrail" project within "CoinFactory," employing NextJS, Styled Components, Redux, API, JavaScript, Git, and Jira.
- Applied NextJS and Redux for server-side rendering and state management, utilized Styled Components for UI, and integrated APIs for dynamic content. Additionally, executed backend tasks using Python.
- Engineered a secure ICO platform, 'CoinFactory,' featuring compliance, scalability, and unique customization options.
- Delivered a robust, scalable, modular, and API-centric infrastructure for FutureGrail in Singapore.
- Collaborated in development using Git and Jira, prioritized tasks, resolved software bugs, and orchestrated large-scale deployments.
- Demonstrated effective communication with QA testers and graphic designers to ensure seamless collaboration and project success.
- Maintained regular delivery of project reports and milestone updates to keep the client informed.
- The project is accessible for viewing at [FutureGrail](#).

- HealthierU Project - Dubai:
- Developed a comprehensive project for a prominent Dubai-based client using ReactJS, CSS, Material-UI, JavaScript, API, Git, and Jira.
- Aimed to create a seamless and user-friendly user interface through responsive and visually appealing design.
- Utilized Material-UI components and CSS styling for consistent aesthetics, leveraging ReactJS for reusable components and state management.
- Integrated APIs to fetch and display dynamic data, Implemented chat and video call functionality using Agora SDK to enhance user interactivity.
- Showcased proficient communication skills with QA testers and graphic designers, ensuring a seamless development process.
- Collaborated effectively using Git and Jira for project management, prioritizing tasks for efficient coordination.
- Successful project completion resulted in client satisfaction.
- The project can be viewed at [HealthierU](#)

## EDUCATION

J.P.Dawer Institute of Information Science and Technology, Veer Narmad South Gujarat University, India, Surat, Gujarat, India, Oct 2020 – Jul 2022 **Master of Science in Information Technology (M.Sc.IT)**

- Projects involving .Net, Java, Android, and ReactJs
- Proficient in JavaScript, HTML5, Bootstrap, CSS3, and SQL

J.P.Dawer Institute of Information Science and Technology, Veer Narmad South Gujarat University, India, Surat, Gujarat, India, Jul 2017 – Sept 2020 **Bachelor of Science in Information Technology (B.Sc.IT)**

- Projects involving PHP, HTML5, Bootstrap, CSS3 and SQL.

## SKILLS

- **Frontend Development:** JavaScript, ReactJS, NextJS, Redux, CSS, HTML, TypeScript, Styled Components, Bootstrap, Material-UI, Cross-browser Compatibility, Responsive Web Design
- **Backend Development:** Python, .NET, SQL, REST APIs
- **Version Control & Collaboration:** Git, JIRA
- **Software Products:** Syndigo / Riversad PIM (SaaS)
- **Tools:** SQL Server Management Studio, Confluence, Postman
- **Operating System:** Microsoft Windows
- **Methods:** Agile Methodology
- **Volunteering:** Volunteered as a Junior Developer in a Java insurance product project for 4 months (2021)

## CERTIFICATES

- MDM For Implementation Consultant [Syndigo University] (2023)
- The Complete Python Bootcamp From Zero To Hero In Python [Udemy] (2023)
- The Data Science Course: Complete Data Science Bootcamp [Udemy] (2023)
- The Complete 2023 Web Development Bootcamp [Udemy] (2022)
